<b>TOTAL REVENUE</b>	<b>307,279,985</b>	<b>51,769,213</b>	<b>90,639,450</b>	<b>29%</b>

As at the end of August, the municipality has generated total revenue of **R90.64 million**, representing **29%** of the original annual budget of **R307.28 million**. This performance is mainly supported by receipts from **Operational Grants** and **Operational Revenue**. It is important to note that these amounts are drawn directly from the financial system and may exclude transactions not yet captured.

#### **Exchange Revenue:**

- **Service Charges – Electricity:** Revenue of **R3.14 million** (9% of budget) has been billed to date. The current performance is below expectation and will require the revenue team to monitor and ensure alignment with projected consumption and billing cycles.
- **Service Charges – Water and Waste Water Management:** Water revenue stands at **R1.24 million** (24%), while Waste Water Management revenue is **R4.05 million** (24%). Both categories show relatively strong progress, reflecting consistent demand and stable billing patterns.

- **Service Charges – Waste Management:** Revenue of **R2.57 million** (9%) is recorded, significantly below the year-to-date benchmark. This shortfall may be attributed to under-billing, incomplete capturing of transactions, or delays in revenue recognition, which will be investigated.
- **Sale of Goods and Rendering of Services:** Income of **R111 319** (26%) has been realised. Although the contribution to overall revenue is minimal, the performance is tracking positively against projections.
- **Interest Earned from Receivables:** At **R7.24 million** (18%), revenue reflects accruals of interest on outstanding consumer accounts. While performance is below the year-to-date benchmark, it indicates continued recognition of consumer debt interest.
- **Rental from Fixed Assets:** Revenue has reached **R49 412** (40%), performing well above the year-to-date benchmark and likely benefiting from stable rental agreements.
- **Operational Revenue:** A total of **R134 571** has been recognized, exceeding the annual budget by over **300%**. This over-performance should be further reviewed to confirm whether it stems from once-off or unanticipated revenue, or whether amounts may have been misclassified.

### Non-Exchange Revenue

- **Property Rates:** An amount of **R4.86 million** (14%) has been billed, which is below the expected year-to-date performance, potentially indicating delays in billing or slower than anticipated payments.
- **Fines, Penalties and Forfeits:** No revenue has been recorded to date against the budget of **R53 500**, requiring follow-up with relevant departments to determine the cause of underperformance.
- **Transfers and Subsidies – Operational:** Revenue of **R65.91 million** (46%) has been recognized, driving the overall strong performance of non-exchange revenue. The higher-than-expected receipts are mainly attributable to the Regional Bulk Infrastructure Grant (RBIG), which was budgeted under operational transfers.
- **Interest (Investments):** At **R1.35 million** (27%), revenue is performing in line with expectations, supported by the municipality's cash balances.

## Billing vs Collections Analysis

After reviewing revenue performance, it is also important to look at billing versus collections. While billing shows what the municipality has charged consumers, collections reflect the actual cash received. This comparison highlights how well the municipality is converting billed revenue into cash to support service delivery and operations.

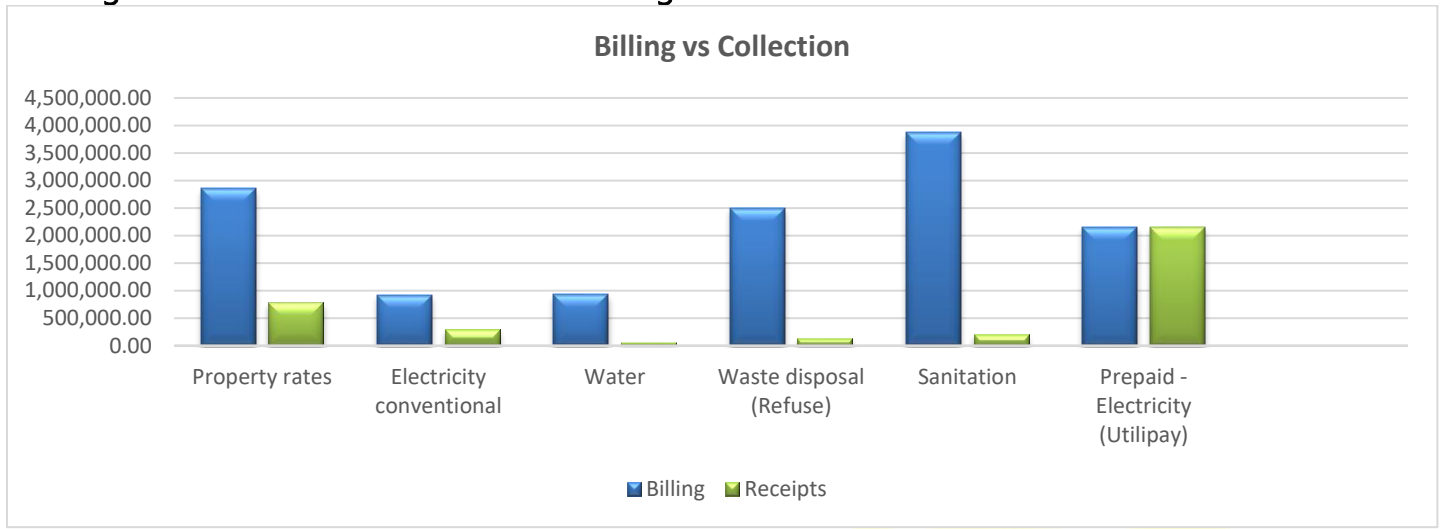

**Table 2** presents billed amounts and actual collections per revenue source for August 2025. The table provides a clear view of the municipality's cash inflows relative to what has been billed, helping identify areas where collection efficiency may need improvement.

**Table 2: Billing and Collections per Revenue Source - August 2025**

Property rates	2,850,612.33	(783,730.38)	27.00%

**Figure 1** illustrates billed versus collected amounts in a bar graph format. This visual representation makes it easier to compare performance across different revenue categories and quickly identify discrepancies.

**Figure 1: Billed vs Collected Revenue – August 2025**

**Figure 2** shows vendor transactions which are not yet reflected in system-generated reports, providing a clear reference for reconciliation and explaining the variance between billed amounts and actual collections. The municipality is in the process of reconciling these receipts to ensure that all prepaid electricity income is accurately captured in the financial system.

<b>Total Expenditure</b>	<b>337,642,809</b>	<b>46,010,683</b>	<b>65,305,220</b>	<b>19%</b>

As at the end of August, the municipality has spent **R65.31 million**, representing **19%** of the annual budget of **R337.64 million**. Major expenditure items such as employee costs, bulk electricity, interest, and operational costs are tracking within expected year-to-date proportions. Contracted services shows higher spending at **47%**, this is because the municipality rely on contractors for essential services such as security, maintenance, and specialized technical functions, which results in high monthly payments. No expenditure has been recorded for **depreciation, debt impairment, or irrecoverable debts** as these are calculated at year-end or await Council approval, as explained in the table.

## Grants Performance

In terms of section 19 of the MFMA, a municipality may incur capital expenditure only in terms of the approved capital budget and within the limits of amounts appropriated for the different votes in the approved budget.

The municipality receives grants from various sources in accordance with allocations as per the **Division of Revenue Act (DoRA)**. These grants are classified into **Conditional Operational Grants** and **Conditional Capital Grants**, depending on their purpose. Total Conditional Grant budget for the municipality is R102 million for 2025/2026 Financial Year. Table 4 below will provide a summary of grant receipts, expenditure, and the percentage spent to date.

**Table 4: Grant Receipts and Expenditure – August 2025**

- **Financial Management Grant (FMG):** The municipality has received the full FMG allocation upfront. Expenditure is currently at 4%, mainly due to timing differences in planned activities. Spending is expected to accelerate as planned programmes are rolled out during the year.
- **Expanded Public Works Programme (EPWP):** The municipality has received the first tranche of the allocation but has not yet incurred expenditure. The delay is due to projects being in the mobilization phase, with recruitment and appointment of beneficiaries still in process. Expenditure will start once project activities commence.
- **Municipal Infrastructure Grant (MIG):** MIG spending has not started. The early tranche received remains unspent.

- **Water Services Infrastructure Grant (WSIG):** WSIG is progressing relatively well, with 26% of receipts spent to date. Expenditure relates to Waste Water Treatment Works project in Boshof.
- **Regional Bulk Infrastructure Grant (RBIG):** RBIG is the best-performing grant at 77% expenditure. The high spending reflects payments made for bulk water infrastructure commitments and ongoing construction activities.
