RECRUITMENT OF LEARNERS TO PARTICIPATE IN THE WASTE MANAGEMENT SKILLS PROGRAM

The Lejweleputswa District Municipality applied for LGSETA Special Projects in the focus area of municipal health. The chosen area was as a result of the shortage of trained people in the field, either as professionals or other supporting roles.

Secondly, the events that took place in the district the previous year (2024) highlighting the huge shortage of personnel handling environmental health and environmental management issues in the district also motivated the application.

Amongst the number of skills programs applied for, LGSETA awarded Lejweleputswa District Municipality the Waste Management Skills Program for four hundred (400) unemployed (18.2) learners throughout the five local municipalities' areas of jurisdiction, following the DDM approach. The learners are to be recruited from these areas using any form or platform available including through the assistance of the local municipalities.

The following information is of critical importance in ensuring that the skills program is a success and benefits the intended participants:

- The LGSETA contracting meeting took place on Tuesday, 15 July 2025 in which the closing date for learner enrollment was announced as the 30 July 2025. The deadline provides two weeks to ensure that recruitment is done, and learners are enrolled.
- Requirements for enrolment are:
 - (1) any highest level of qualification,
 - (2) age: 18 years and above
 - (3) duration – 5 days
 - (4) closing date for applications: **25 July 2025**

Attached is the advert that can be used by your municipality to recruit learners in the area(s).

Your assistance in recruitment of learners will be high appreciated.

Regards,

ML MAKHETHA
MUNICIPAL MANAGER
